

Near-total weight-space erasure, with the behaviour intact

Merged LoRA quantized to INT4 g128. Rank-32 taboo adapters on Qwen3-8B.

Bars are means over adapters, whiskers 95% bootstrap CIs over adapters, open circles individual adapters.

Panels share a population but not a sample: 6 of the 6 behavioural adapters also have weight-space runs.

Stored weights CHANGED

Trained behaviour RETAINED
